RENATA'S AFRICAN ADVENTURES

Renata went on an exciting trip to Africa collecting beautiful things and taking photographs of everyday life there. She was amazed by the cultural differences Africa has in comparison to Australian traditions. She met many African people, saw amazing animals and played her guitar to children in East Africa. Renata also found a 'Djembe' Drum and learnt a fun African animal game! Her new found African stories and songs are enjoyed during this show through the help of the students. This show is communicated through Renata's own observations, and the music, percussion, artifacts, storytelling and enlarged photos help to depict what African life is really like.

This show is a fantastic African experience communicating a culture from an Australian perspective.
