Look After Your Pets

Renata visits with some fantastic animal puppets - a dog that loves a daily walk and a cat that likes to play games. This show is designed to help children understand the importance of being a responsible pet owner. There are some great props from the dress up suitcase to help our child actors & actresses tell a story about a very bored dog's outrageous behavior.

The music and stories in this important show reinforce the message that looked after pets are happy pets. This show is designed to imprint important messages into children's hearts.
