The Power of Words Show

IT'S REALLY THAT EASY!

And even more affective when the children hear that significant line "use your words" from a fun entertainer. This show helps children learn to communicate, by experiencing some common childhood disputes and role playing, dressing up and learning songs and actions to encourage them to speak out positively. The use of simple sign language helps children to remember positive words.

The Power of Words show is enjoyed through music, drama and a cool rap songs and funny gags along the way. As we all know, children learn when they are having fun.
